DEPARTED
In Barkerville, on the 4th October, the wife of Mr S. P. Parker, of a son.
DIED.
On the 25th inst., at the Royal Hospital, in this City, of small-pox, Robert Scott, a native of Scotland, aged 47 years.
The funeral will take place from the corner of Store and Johnson streets, at 10 o'clock a.m., this morning, (Tuesday).

Auction Sales To-day.
J. P. DAVIES & Co., Wharf street, will sell at 11 o'clock, Clothing; also Groceries, &c.

SHIPPING.—The Black Diamond arrived yesterday from Nanaimo with 115 tons of coal, so that the market is again supplied with this essential article. The steamers Enterprise and Sir James Douglas left for New Westminster and Nanaimo respectively, this morning, with good freights. The latter took up over twenty tons of flour, besides other freight. The brig Olga, Captain Sandeman, arrived at Esquimalt from Sitka on Saturday night, after a seven months' cruise in the Northern seas. It is understood that she returns to San Francisco immediately. Moody & Co received a telegram yesterday that the ship Top-Gallant would leave San Francisco in a few days for their mill, at Burrard Inlet, to load for Callao. One million feet are engaged for her.

POLICE COURT.—The case of P S Wolfe, steward of the ship Spirit of the Age, was resumed yesterday morning. The additional testimony of Martin McCarthy and Mr Hunter, the Customs' officer of Esquimalt was taken, but it did not bear very strongly against the prisoner. McCarthy merely swore to bringing in his cab the eleven boxes back to Victoria, Captain Wyld paying for the freight, and Hunter, to watching the wharf owing to information he had previously received, on the night of the alleged smuggling and to seeing the prisoner in Howard's house. After that Mr Bishop had spoken some time on behalf of his client, the case was again adjourned until to-day.

THE MAYOR'S COURT.—Yesterday, John Baldwin appeared before this Court. His Worship the Mayor and A F Pemberton, Esq., S M, presiding, in answer to a summons issued by said Court for the non-payment of \$2 50, disbursed by the Sanitary Commission for cleansing defendant's premises, in accordance with the provisions of the Sanitary By-law. Judgment was given against defendant with costs. In reference to this matter, we trust this case will establish a precedent worthy the attention of those occupying a similar position as Baldwin, and point out the propriety of immediate settlement of such reasonable demands.

LATER FROM THE MARSH TROUPE.—A person belonging to this office received a letter by last mail from one of the Marsh family, in which he says the Mary was 57 days to Shanghai, and that she will return to the Sound to load with lumber. On the 29th of August the company gave a performance at the city abovementioned—prices of admission were dress of \$3, pit \$2, gallery \$1. Board was \$3 a day, at the same time beef was 8 cents per lb, and eggs 10 cents per 100. The several members of the party were well up to the date of writing; the weather was so warm that they did not usually go out of doors until 7 o'clock in the evening.

ELECTION.—We are requested to call attention to an alteration in the Sheriff's announcement with reference to the election. It will be observed that the hour of polling will commence at 8, instead of 9 o'clock, a.m.; that the polling for District No 2, will be on the 11th instead of the 4th of November; and that the polling for District No 3, will be on the 11th instead of the 4th of November.

THE EUROPEAN FOREST AND PEAT FIRES.—The Liverpool Mercury says, from all parts of the Continent comes the same story of forest on fire. The ravages in Russia appear to be most extensive, and the flames were reported to be making rapid progress in the direction of St Petersburg. The trains on the Nicolaus railroad for some time past have been running backward and forward through a district of 200 versts, or about 130 English miles, enveloped in flames and smoke.

ENGLAND VS. B. C.—RIFLE MATCH.—A rifle match has been arranged to come off shortly, between the London Victorians and representatives of our Colonial Volunteers, ten men on either side. At Wimbledon, on the 3rd of Nov, and over the Victorians' range, Mount Tormie, one week later the 10th, have the dates of shooting been fixed—distances 200, 400, 500 and 600 yards, five rounds at each.

NANAIMO ELECTION.—It was Mr Bishop's intention to go to Nanaimo this morning by the Sir James Douglas, to canvass the electors of that town; but as we are aware, that notwithstanding his application to the Court yesterday in a case in which he is engaged, the magistrate decided the case must proceed to-day, and Mr Bishop is thus detained in the city.

SANITARY.—From Friday, the date of our last report, until last night, there were only two new cases of small-pox amongst the white population, both of which were sent to the French hospital.

New Dukedom.—It had been reported in the best English circles that the Marquis of Abercorn, Lord Lieutenant of Ireland, was to have been created a duke. In that case we believe it would have been the first dukedom Queen Victoria conferred during her illustrious reign, except that upon her own son, Prince Alfred.

New Group.—Piper came out again yesterday with another group. Drs Helmcken and Powell are in consultation over Mr De Cosmo, who is represented as suffering from Dr Helmcken's anti-Confederation pills. The thing is good and the likenesses are inimitable, Dr Helmcken in particular.

A Missionary meeting will be held at the Alhambra Hall on Thursday afternoon next at half-past 3 o'clock, when the Rev J B Good will offer an account of his work and mission amongst the Indians of the interior of the mainland. All who are interested in the cause in question are invited to attend.

THE OTTER.—This steamer leaves for Nanaimo this morning, after which she will go round to Burrard Inlet for the purpose of towing the Princess Royal to sea, the latter vessel being laden with lumber for Valparaíso.

ACCIDENT.—Some boys from 13 to 16 years of age were out shooting on Sunday, when Thomas Wall was seriously hurt in the forehead by his gun bursting.

POSTPONEMENT.—The public meeting which was advertised to be held at the theatre on this evening has been postponed until Thursday evening.

RETURNED.—We are informed that Dr. Carrall has been returned without opposition for the Cariboo district.

H M S BEAVER. Capt Pender, arrived at Esquimalt from the North on Saturday night.

Cariboo News.

(From the Cariboo Sentinel, 13th inst.)

Tom O'Neill very coolly mounted a horse belonging to Mr J. Van Volkinburgh, which was hit by the side of the butcher's shop in Barkerville, and rode off towards Richfield. The act being immediately discovered, the owner sent Mr Fitzgerald in pursuit, who overtook the transgressor a short way out of Richfield and brought him back, restoring the horse to the owner and lodging the thief in jail.

The Banks have reduced the purchase price of gold dust one per cent.—a measure which creates very general dissatisfaction, as the price heretofore was considered by the miners too low, and will no doubt lead to the removal of the Government Assay Office to Cariboo—the most fitting, and in fact the only proper place for that institution.

The weather has become dry again, and all hopes of a fall freshet have fled, or at least there is scarcely a hope that there will be any fall mining. Yesterday the weather was clear and warm—just such an October day as might be expected in Victoria or in a latitude ten degrees more southerly on the Atlantic coast.

Our anticipations in regard to the yield of gold for the past week have not been realized. The rainy season, which was generally believed to have set in, proved to be only a few showers. The only claims that washed up the last week were as follows:

WILLIAM CREEK.
The Mosher co. 120 oz; Baldhead co. 60 oz; Barker co. 50 oz; Sheepskin co. 80 oz; Sheephead co. 13 oz; Eagle co. 7 oz; Lillooet, about expenses; Never-sweat, good pay.

STOUT GULCH.
Mucho Oro co. washed up for the week 20 oz; Lillooet, 60 oz; Taffvale co. 220 oz; Floyd co. 100 oz.

CONKLIN GULCH.
The Rerfrew co. washed up for the week 32 oz; the Indian Queen co. at the upper end of the gulch, has commenced to sink a shaft.

HARD SCRABBLE CREEK.
The accounts from this creek continue very favorable. A single interest in the Discovery claim sold for \$1000 cash. There are nine companies located on the creek as follows:

The Aurora, 800 feet; Brooks, 800 feet; Discovery, 2400 feet; Slide, 800 feet; Caradoc, 1500 feet; Mary Ann, 500; Cambrian, 1000 feet; Wide West, 500 feet; Green Horn, 600 feet.

HARVEY CREEK.
The Minnehaha co. has struck a good prospect, and the company are preparing to work all winter.

WELL WORTH READING.—Who is there that does not desire to be always exempted from indigestion—to have a good appetite, a painless stomach, a clear head, a regular pulse, a healthy complexion? If this meets the eye of any who are not thus blessed, let them try HOSTETTER'S STOMACH BITTERS. We guarantee that this delightful tonic will restore any stomach, however weak, to a healthy condition; that it will bring back the true appetite, and give permanent vigor to the whole system. The feeble and emaciated suffering from dyspepsia or indigestion in any form, are advised, for the sake of their own bodily and mental comfort, to try it. Ladies of the most delicate constitution testify to its harmless and its restorative properties. Physicians everywhere, disgusted with the adulterated liquors of commerce, describe it as the

SAFEST AND MOST RELIABLE of all stomachics. Its effects are instantaneous. It does not require weeks of dosing before its virtues are realized. Thousands sit down to their meals void of appetite, eat long because others eat. The food thus forced into the stomach does positive harm. Instead of strengthening the system it engenders a variety of ailments, which end in confirmed dyspepsia.

HOSTETTER'S STOMACH BITTERS taken regularly before meals will prevent all this.

NEVER wear a Cough or irritation on the lungs, when you can buy AYER'S CHERRY PECTORAL, the world's great remedy that cures it.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Progress of the American Elections.

Dr. Livingstone Again Heard From.

THE ALABAMA CLAIMS.

Spanish Revolution, &c.

Eastern States.

NEW YORK, Oct. 19.—The New York World says, we think the reflection will convince Blair that the ticket will be strong if some other name is substituted for his. A party cannot subsist on vapors and make believe; unless we can change the aspect of our canvass we shall have a repetition in November of the result which has overtaken us in a primary contest. Governor Seymour now can aid us much, but Blair can aid us far more and in a different way by a chivalrous action, superior to all eloquence.

BUFFALO, Oct. 22.—Seymour telegraphs that he will take the stump in person, and will open the campaign at Buffalo on Thursday.

An Omaha despatch gives the official vote of twenty counties gives a Republican majority of 1900; four counties to hear from will increase this 2400.

PITTSBURG, Pa. Oct. 19.—John Quincy Adams said the Southern people were as loyal as any at the North; the two races he found friendly disposed, the negroes were peaceable in all cases except when they were excited and influenced by the Carpet-baggers. On the subject of the Presidency, he says it is now too late to change; the election of Grant is inevitable. He never believed Chase could have carried the day against Grant, certainly not now. He considers the Democratic platform more objectionable than the candidates. The only issue upon which they should have gone before the people was reconstruction; from the administration of Grant he had the best hopes that peace would be restored.

WHEELING, Va. Oct. 22.—The returns show a largely increased vote; the gains favor the Democrats; they also claim to have carried the state by 2,000, while the Republicans claim they have carried the State and elected all their Congressmen.

CHICAGO, Oct. 22.—The Republican's special from Washington says, the *Intelligencer* has an editorial admitting that the Democrats will undoubtedly be defeated under their present leaders, and demands a change and the nomination of either of Chase, Hancock, Johnston or Hendricks. Montgomery Blair is furious and declares the *Intelligencer* is bought by radical money. It is reported in the street that the *Intelligencer* will come out for Grant.

Europe.

LONDON, Oct. 20.—It is reported that the Alabama claims will be referred to the Emperor of Russia for arbitration.

MADRID, Oct. 20.—The reorganization is progressing rapidly. The Governors, civil and military are appointed in all the provinces. The Democrats who have assembled in various parts of the country have declared for a Federal Republic. All men of the age of twenty are to be allowed to vote.

PARIS, Oct. 20.—It is denied that the Emperor favors the elevation of a Spanish prince to the throne of Spain.

MADRID, Oct. 20.—The Central Provisional Junta issued a circular to the Spanish diplomatic representatives at foreign courts which explains the origin and progress of the revolution. It also advocates the sovereignty of the people and religious freedom. No foreign intervention is apprehended; the future form of Government is not announced; the provisional government seeks to put Spain on a level with the advanced powers and hopes the friendly relations of foreign governments with Spain under the late oppressive regime, will be continued unbroken.

Dr Livingstone is said to be within a day's march of Transjor.

LIVERPOOL, Oct. 19.—The address of the Chamber voted to Reverdy Johnson, congratulates him on the peace and harmony existing between Great Britain and the United States, and urges the necessity for the practical adoption of free trade in America.

California.

SAN FRANCISCO, Oct. 22.—The steamer Sacramento sailed for Panama; she had very few passengers.

Legal Tenders 724734.
Arrived steamer Oriflamme from Portland.

DELAYED DESPATCHES.

Eastern States.

NEW YORK, Oct. 9.—Mail advices India state that a shock of earthquake was felt pretty generally in the Punjab on the 26th August, at half-past six in the morning, but was not severe.

NEW YORK, Oct. 9.—Howell Cobb, of Georgia, fell dead this morning, on the corridor of the Fifth Avenue Hotel.

NEW YORK, Oct. 9.—The Mozart Democracy are again in the field. They urge Fernando Wood to accept the Congressional nomination for the Ninth District.

NEW YORK, Oct. 10.—Horace Greeley has been nominated to Congress from the Fifth District.

CHICAGO, Oct. 10.—The New York Tribune of the 9th throws some light on the frightful increase in the deficits for the postal service, which the reports have shown. It says that about two months ago the Post Office Department awarded the contract for carrying the mails in the country beyond the Pacific Railroad to Mr Spaulds. There were three bidders—Spaulds at \$350,000, the second person at about ten thousand more, and Wells, Fargo & Co, who made a bid in the neighborhood of one million. Spaulds' bid was accepted, and the bonds given for the faithful performance of the contract. The Post Office Department, several days ago, learned that Spaulds had disappeared, and thrown up his contract. The Department is said to have called on Wells, Fargo & Co to do the work. Many complaints and unpleasant stories are in circulation in regard to the transaction. It is well known here that the way the Government is swindled on contracts is to have a number of irresponsible bidders who under bid, and give worthless bonds, and then throw up their contract, when they are awarded to another member of the ring, who puts in a higher bid.

CHICAGO, Oct. 9.—A Washington special says President Johnson has expressed an opinion lately that he considers the election of Grant certain.

CORNELSVILLE, Oct. 9.—Four hundred students entered Cornell University. No more can be admitted to the Freshman class.

NEW YORK, Oct. 9.—The Protestant Episcopal Convention passed the entire session in discussing the question of admitting the Diocese of Nebraska. Opposition was made on the ground that the delegates were appointed by a body calling itself the Council of Nebraska, instead of the Diocese of Nebraska. No conclusion was reached.

The library of Fitz-Green Hall will be sold at auction on Monday. The steamer Alaska sailed to-day for Aspinwall, with a large list of passengers and 1,250 tons of freight for San Francisco, including a lot of railroad iron and locomotives for the Central Pacific Railroad.

The Board of Consulting Engineers of the Hudson & Highland Suspension Bridge Company met to-day to examine the river to secure a favorable site for the erection of a bridge.

Robert J Walker has published a letter stating that there has been an annual increase in the public debt of \$40,000,000, which he charges as the result of Radical extravagance. The Republicans state that he omits to mention that this increase was caused by back payments due on soldiers' bounties and pensions.

Editorial Correspondence—No. 16.

PRESCOTT, Ontario, Aug 21 1868.

We arrived here at noon to-day, and found the people in a somewhat feverish state of mind in consequence of the reported gathering of 15,000 Fenians, a few miles back of the American town of Ogdensburg, just across the St Lawrence river. The rumour was brought over by one of the agents or spies of the Colonial Government, who is stationed over the line and well salaried to watch the movements of citizens of the 'Irish Republic.' During the morning a British gunboat had moved and taken up a position opposite the town, the sentries on the block fort at Prescott had been doubled and the preparations on foot for welcoming the Fenians 'with bloody hands and hospitable graves' were complete. I believe grave-diggers had even been appointed to look after the shortly-to-be-de-funct 'O's and Mac's,' when another report came over that the first report was a hoax perpetrated by the Government agent who was a little fearful that if there was neither war nor rumors of war his services would shortly be dispensed with, so he got up this new 'scare' to secure him in his comfortable billet, and perhaps intended to apply for an increase of salary in consideration of his vigilance in discovering an army of Fenians in a country where there had not been so much as a Celt in a 12 month. The town instantly subsided into its wonted state of quietude and somnolence, for without exception Prescott is the sleepiest burgh I have yet seen. Its 6000 inhabitants appear to be not only asleep but snoring too. Talk about Victoria being dull! Why, if thirty-five Victorians were set loose here some fine day they would seem so spry that the people, imagining a train of cars had run of the track and was tearing down the street at full speed, would break for the tall timber to find a hiding place. The streets afford good pasturage for cattle, only there are no cattle near to take advantage of the good luck awaiting them. The only signs of life we observed before the trains have in sight were furnished by a flock of tame ducks flying before the assault of an old dame driving them to supper.

For eight York Shillings (\$1 in green-backs) we got a 'square' meal at one of the two 'hotels' of the place, after some difficulty experienced in arousing the waiter to a sense of the important duty devolving upon him. The poor fellow snored audibly whenever he tried to articulate a word of one or more syllables. 'Meat,' 'salt,' or 'bread' he jerked out with passable rapidity; but 'but-ter' and 'pu-d-en' seemed to stick crossway in his fat throat. 'Pot-ato-es' was ejaculated with two or three horrible grimaces, and when he came to 'sau-er-flower' the fellow actually hung himself across the back of my chair and seemed to doze a moment before he ejaculated the 'es.'

There are some pleasant residences in Ogdensburg, but an oppressive stillness hangs over the place which renders a stay within its limits really disagreeable.

At 1:35 we are off for Ottawa, the Capital of the Dominion.

Nanaimo "Selection."

EDITOR COLONIST.—It is presumed that we are entitled to have the privilege of selecting a member to represent our town and district in the Legislative Council, and I believe I am right in stating that the selection up to this time has been looked forward to with the utmost indifference; because, in the first place, nearly all the selections hitherto made have proved to be bad ones—that is so far as our interest is concerned—and secondly, because, under any circumstances, the gentleman chosen has seemed powerless to effect any good either for us or the country. It is not to be wondered at then that we should have exhibited carelessness in a matter apparently of no importance to us—that politically we should be sunk into lethargy, and that we should appear to be willing to allow a Government which fetters the energies of the colonist and retards the progress of the country in a hundred ways—to serve out its time. This selection does seem a farce—an insult to the sense of every Briton, and one feels a little humiliated in participating in a proceeding which may or may not receive the approval of the Governor. It is not to be supposed that our selection would be rejected; but the mere fact of the authority to set aside our choice at will, being vested in the Executive is in contravention of the rights and privileges which every British colonist feels to be inherent, and which rights we are now determined to claim. Led on by other sections of the Colony, we intend to make one more effort to rid ourselves of the incubus which has so long hung about us to obtain representative and responsible Government, and no candidate unprepared to carry out this, I may venture to say, will be acceptable to the people of Nanaimo.

You mention Mr Southgate as coming forward for the suffrages of the selectors here. He, sir, has proved recreant to the trust formerly reposed in him, and therefore had better withdraw in time; for I feel confident he will not again be able to cajole the folks up this way. No sir, we must have a gentleman true to his colors—one prepared to co-operate with other independent members in an endeavor to carry out the only effectual scheme by which the country at this juncture can prosper. We have been feeding subject to the dictates of self-interest or caprice—the Colony shamefully misgoverned, overgoverned, or perhaps I should say, not governed at all—and the wants of the different districts treated with the greatest neglect. While we are in such a case of helplessness, possessing no power to improve our position politically or commercially, we cannot hope for anything better; but a remedy must be sought, and if obtained with all the advantages which representative Government confers, we may expect that trade and commerce will soon show signs of activity, and hence something like a state of prosperity will arise.

Nanaimo, 22 Oct, 1868.

The late Exhibition.

EDITOR COLONIST.—As I know you to be an impartial judge in public matters and a lover of fair play, allow me to ask if you took particular notice of the farce that was played at the Agricultural Show on the 8th October. I have heard of bribed judges and bribed juries, but I never heard of a man being put in office expressly to be a judge of his own wares or merchandise. Is it likely a man will decide against himself when he has the power to do himself a favor? they say self praise is no recommendation. I will now come to the point: How was it Mr Bunster did not get the first prize for his stallion? because he was not for himself in that part of the show. How was it that Mr Bunster claimed the two first prizes for his hops and barley? why, because he was allowed to be judge for himself; but when he found he could not substantiate his claim on the hops, he, like a greedy child not willing to let go all his power, bites the cherry in halves. Had I known that Mr Bunster was to be judge I would not have sent a sample to the show, for I should have known the result; it was given in by competent and real judges of hops that mine were the best, so I am told, for I was not there myself; they were dried fit for market or store. It is not for the dollar I complain, for thank God I have enough without the prize in full; but it is for allowing a person to be judge of his own wares. 'Tis well known if I had not had started hop growing, there would not have been a hop grown on the island to this day. Dear Sir, if you will give this a place in your paper, you will extremely oblige your humble servant,

J. CLOAKE,
North Saanich.

HOLLOWAY'S PILLS.—Nervousness and want of Energy.—When first the nerves feel unstrung, and listlessness supplants energy, it is the right time to take some alternative as Holloway's Pills to prevent disorder running into disease. These excellent Pills correct all irregularities and weaknesses. They act so kindly, yet so energetically on the functions of digestion and assimilation, that the whole body is revived, the blood is rendered richer and purer, the muscles become firmer and stronger, and the nervous and absorbent systems are invigorated. These Pills are suitable for all classes and ages. They have a most marvellous effect on persons who are out of condition; that the whole body is revived, the blood is rendered richer and purer, the muscles become firmer and stronger, and the nervous and absorbent systems are invigorated.
